d'Albora Marinas The Spit Mosman NSW 2088

Description

Following on from the ever successful Maritimo X60 comes the smaller version pumped with big features.

The design of the new X50 features two staterooms and ensuites forward.

The forward stateroom design features Maritimo's offset queen bed design and has VIP ensuite with dual access from stateroom and companionway. Like its larger sibling, the X50 also features a full-width master stateroom with optional king bed (queen standard) and spacious ensuite.

Large hull-side glazing will deliver plenty of natural light. The X50 will also get through-hull portlights for ventilation.

Like the X60, the X50's aft accommodation can be personalized. The Beach Club option can be replaced with a two-berth aft cabin or full-time tender storage.

The X50's main deck comprises helm station, large saloon and a galley-back design. The X-Series champions Maritimo's (optional) three-stage sliding 'vista'. An optional sunroof over the galley provides extra light and ventilation.

Maritimo is recognized for large household galley designs, with another one in the X50 on offer.

The X50 will deliver class-leading fuel economy and range, high-speed cruising capabilities and the latest technology from the world leaders in shaft driven performance

The X50's layout will feature a spacious galley with island bench, upright fridge freezer, full-height pull-out pantry, microwave oven, dish drawer, trash receptacle, and multiple storage cupboards and drawers.

Maritimo has gifted the X50 a "performance-inspired" helm. Optional joystick docking systems will be available.

"The expansive cockpit features a starboard-side entertainment unit and two opposing euro lounge units that can be combined to form an eight-seat protected dining area. Hallmark secure, walk-around decks enable safe passage to the forward deck entertainment area with lounge bed with folding backrests," the company states

Enquire now for a guided factory tour to see the early stages of development.
